

MOLDEX®

EYEWEAR EVOLVED

Our Complete Series of Eyewear

ADAPT™

ADAPT™

MASK-FRIENDLY EYEWEAR

Finally, safety glasses that don't fight your mask.

ADAPT works beautifully with both reusable and disposable respirators. The unique toric-shaped lens helps the eyewear contour naturally alongside masks, helping give wearers a comfortable, secure fit and an extra layer of protection—without compromise.

ALL DAY COMFORT

ADAPT is designed for all-day comfort. An ultra-lightweight frame reduces pressure and fatigue, while flexible soft-grip temples provide a secure, comfortable fit without pinching. With multiple lens options—clear, smoke, indoor/outdoor, amber, and blue mirror—ADAPT delivers comfort and clarity across a wide range of work environments.

PART OF A COMPLETE MOLDEX SOLUTION

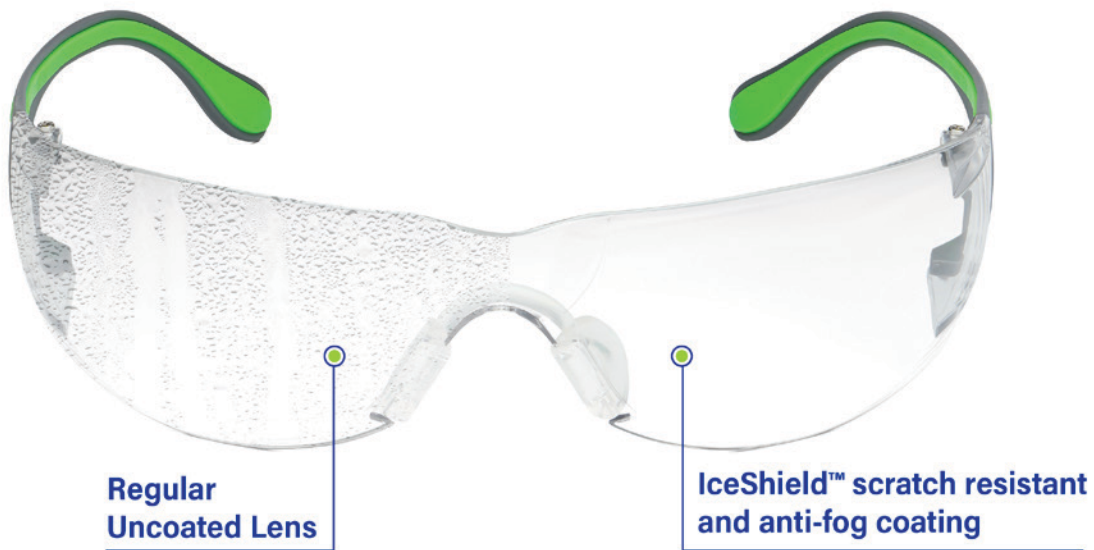

Pair ADAPT safety eyewear with trusted Moldex respiratory protection for a complete PPE solution. ADAPT works seamlessly alongside AirWave® easy-breathing disposable respirators, 2200/2300 Series disposables, and 7000, 7700, and 7800 Series reusable half-mask respirators.

Always refer to warnings and instructions prior to use.

IMPORTANT - If these glasses are used with a respirator, make sure that the glasses do not interfere with the seal of the respirator to the wearer's face.

IceShield™: Engineered for Clear Performance.

- Helps maintain clear vision in humid and high-exertion environments — designed to reduce fogging during extended wear.
- Works immediately — no activation or treatments required — ready out of the box for consistent performance.
- Supports use with respirators and face coverings — designed to reduce fog caused by warm breath and moisture buildup.
- Performs across temperature changes — helps maintain visibility when moving between indoor and outdoor work areas.
- Provides UV protection — helps shield eyes from harmful ultraviolet exposure during outdoor tasks.
- Reduces the need for lens wiping — helps minimize interruptions to help support on-task time.

Always refer to warnings and instructions prior to use.

ADAPT™

5002S-1

AWARD-WINNING DESIGN

- Soft flexible flange helps protect against flying particles.
- Toric lens shape for a closer fit.
- Reduced lens dimensions for added space in the nose bridge area, allowing for a comfortable fit with a respirator.
- UV filter and high anti-scratch coatings.
- IceShield™ scratch resistant anti-fog.
- Meets the following standards: ANSI Z87.1, CSA Z94.3 and **AS/NZS 1337.1.

WELCOME COMFORT

- Unique soft flexible flange means no cumbersome nose pad.
- Flexible soft grip temples.
- Ultra-light construction.
- Available in clear, smoke, indoor/outdoor, amber and blue mirror.

Always refer to warnings and instructions prior to use.
