

A close-up photograph of a black mesh fabric, likely a safety harness or fall protection gear. Several yellow ribbons are woven into the mesh, featuring the brand name 'MOLDEX' and other technical specifications. The ribbons are visible in the foreground and background, creating a sense of depth. The text 'MORE AIR MORE WEAR' is overlaid in large white letters, with a green vertical bar to the left of the first 'M' in 'MORE AIR'.

**MORE AIR
MORE WEAR**

MOLDEX[®] *AIRWAVE[™]*

AIRWAVE DISPOSABLE RESPIRATORS: N95, P95, N100 & P100

MORE AIR. MORE WEAR.™

- Exclusive easy-breathing wave design.
- Larger surface area of the wave design means more airflow and breathability, boosting compliance.
- Longer use means less waste, fewer respirators used and lower costs.
- Dura-Mesh® shell resists collapsing in heat and humidity.
- FlexFit® design moves easily with your face and stays in place.
- Pinch-free molded nose bridge.
- Soft cloth SmartStrap® allows you to adjust for a custom fit, and allows respirator to hang around the neck when not in use.
- Metal free. (SmartStrap models only).
- Meets heat and flame resistance in accordance with ANSI/ISEA 110-2009 Section 7.11.1.

HANGABLE

Break the "take off and toss" habit

N100 W/VENTEX VALVE

◆ 4700N100

P95

● 4300P95

P100 W/VENTEX VALVE

◆ 4400 P100

▲ N95 Series Applications:

Grinding, torch cutting, sanding, metal pouring, sweeping, metal working, bagging, foundries, stone quarries, agriculture, metal machining, construction sites, cement, ceramics manufacturing, underground mining, timber/lumber mills, polishing, buffing, lime, poultry, textiles, welding, brazing, soldering

● N95 Plus Nuisance Levels of Ozone and Organic Vapors Applications:

Welding, arc cutting, foundry operations, brazing, plasma spraying, laser beam cutting/welding, laboratory settings, agriculture, petrochemical manufacturing, rendering plants, auto repair, mining operations, waste disposal

◆ P100/N100 Series Applications:

Metal working, grinding, sanding, sweeping, bagging, foundries, pharmaceutical operations, power plants, environments where an OSHA substance specific standard applies (e.g., lead, cadmium, inorganic arsenic, MDA). Where oil mists are present, either alone or in combination with solid particulates, an R or P respirator must be used

● P95 Series Applications:

Where oil mists are present, either alone or in combination with solid particulates, construction, general manufacturing, mining, oil & gas, transportation
