

EARPLUG CANISTERS

Personal Supply of Hearing Protection
Within Arm's Reach

HANDY AND CONVENIENT

Whether you're on the move, stationed on a remote worksite or working solo, the Moldex Earplug Canisters are the go-to product for a personal supply of hearing protection. Store it in the glove box or console of your work truck, in a locker or toolbox or on a desk. The Moldex Earplug Canister is everywhere you need it to be.

EASY FIT, SOFT FOAM

Moldex foam earplugs are made of extra-soft, extra light foam. The tapered shape of the SparkPlugs, Softies and Camo Plugs fit easily into the ear canal, allowing them to seal gently and snugly with minimal pressure. Plus, the outer surface of the earplugs is smooth, so it doesn't irritate the ear canal. They're so comfortable you'll forget you're wearing earplugs.

All Moldex hearing
protectors are
independently tested
to ANSI S3.19-1974.

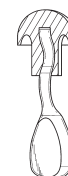

FIND YOUR FIT WITH GLIDE

Glide Foam's patented, multi-curved stem helps the plug to turn its way inside the ear canal for a quick and effortless comfortable seal. You simply push & twist to find your fit. Glide Foam features a high NRR 30dB which is among the highest independent ratings for a no roll style plug.

THE MAGIC IS IN THE STEM

The secret to Glide's ease of use lies in its patented, multi-curved stem. When the user twists the earplug as they push to insert, the plug turns on an asymmetrical axis helping to find each individual user's perfect fit.

NO ROLL DOWN REQUIRED

With Glide Foam, wearers never need to touch the foam pod making them the ideal earplugs for workers who need to wear gloves or have dirty hands.

WARNING TO USER

1. Use these laboratory derived attenuation data for comparison purposes only. The amount of protection afforded in field use often is significantly lower depending upon how the protectors are fitted and worn.
2. Failure to obtain a proper fit will reduce effectiveness of hearing protectors and could result in hearing loss or injury.
3. Over protection can be dangerous. The wearer must be able to hear warning signals.
4. Wearers with hearing loss should exercise extreme caution.
5. It is the employer's responsibility to ensure that the type of hearing protector and its rating is appropriate for the user in their particular workplace.
6. Failure to follow all instructions and warnings could result in increased risk of hearing loss, serious injury or death.
7. Moldex foam earplugs must only be used as part of a hearing conservation program that complies with applicable local safety and health regulations.

MOLDEX TECHNICAL ASSISTANCE

Moldex provides all of the technical assistance required to set up a hearing protection program. For more information call +1 (800) 421-0668 or +1 (310) 837-6500 ext. 512 or E-mail: tech@moldex.com or visit www.moldex.com.

Keep earplugs away from infants and small children as they may get caught in the windpipe and create a choking hazard.

Moldex, Ideas that wear well, Camo Plugs, Glide, Softies, SparkPlugs, the PVC-Free logo, and the random colored streaks and swirls are registered trademarks. Also one or more of the following U.S. Patents: #4,806,186, #D677,777, D512,141 and 8,413,663.
