

MOISTURIZED HEARING PROTECTION

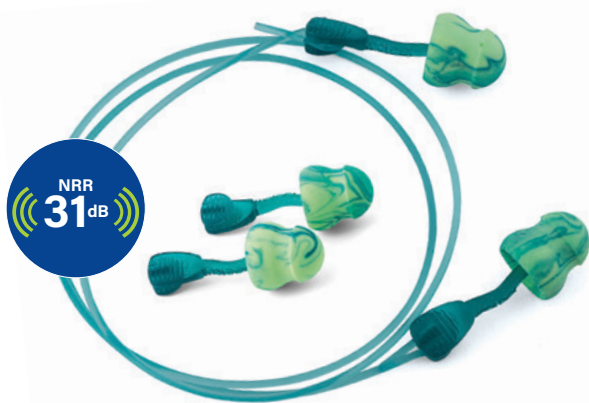

GLIDE SOOTHERSTM Moisturizing Earplugs

MOISTURIZES FOR ALL DAY COMFORT

Glide Soothers' unique multi-curved stem rotates for a custom fit inside each ear canal. Combine that with the signature Soothers® soft comfortable outer surface that is so smooth, it doesn't irritate the ear canal. With its unique curved stem design, you simply push & twist to find your fit.

- ✓ **Moisturizes for all day comfort.**
- ✓ **Unique multi-curved stem rotates for a custom fit.**
- ✓ **Extra-soft, low-pressure foam for comfort and fit.**
- ✓ **Large handle on curved stem for easy insertion & removal.**
- ✓ **Cord can be attached at any desired length.**
- ✓ **Look for the streaks and swirls as a symbol of Moldex quality.**
- ✓ **100% PVC-Free, for reduced environmental impact.**

SOOTHERS™

Moisturizing Earplugs

SOFT COMFORTABLE FIT

Moldex® Soothers® foam earplugs are made of extra-soft, extra light foam. Their tapered shape fits easily in the ear canal, allowing them to seal gently and snugly without uncomfortable pressure. Plus, the outer surface of the earplug is smooth, so it doesn't irritate the ear canal. They're so comfortable you'll forget you're wearing earplugs.

- ✔ Moisturizes for all day comfort.
- ✔ Highest independently tested NRR 33 dB.
- ✔ Extra-soft, low-pressure foam for comfort and fit.
- ✔ Tapered shape for easy insertion and removal.
- ✔ Non-irritating smooth surface
- ✔ Look for the streaks and swirls as a symbol of Moldex quality.
- ✔ 100% PVC-Free, for reduced environmental impact.

WARNING

1. Use these laboratory derived attenuation data for comparison purposes only. The amount of protection afforded in field use often is significantly lower depending upon how the protectors are fitted and worn.
2. Failure to follow all instructions and warnings could result in increased risk of hearing loss or serious injury or death.
3. Failure to obtain a proper fit will reduce effectiveness of hearing protectors and could result in increased risk of hearing loss, serious injury or death.
4. Over protection can be dangerous. The wearer must be able to hear warning signals.
5. Wearers with hearing loss should exercise extreme caution.
6. It is the employer's responsibility to ensure that the type of hearing protector and its rating is appropriate for the user in their particular workplace.
7. Use caution when working around machinery or any other equipment to ensure neck cord does not become caught or entangled.
8. Earplugs must only be used as part of a hearing conservation program that complies with applicable local safety and health regulations.
9. If irritation, redness or discomfort occurs, discontinue use and consult a licensed health practitioner.

Keep earplugs away from infants and small children as they may get caught in the windpipe and create a choking hazard.
