MOLDEX®

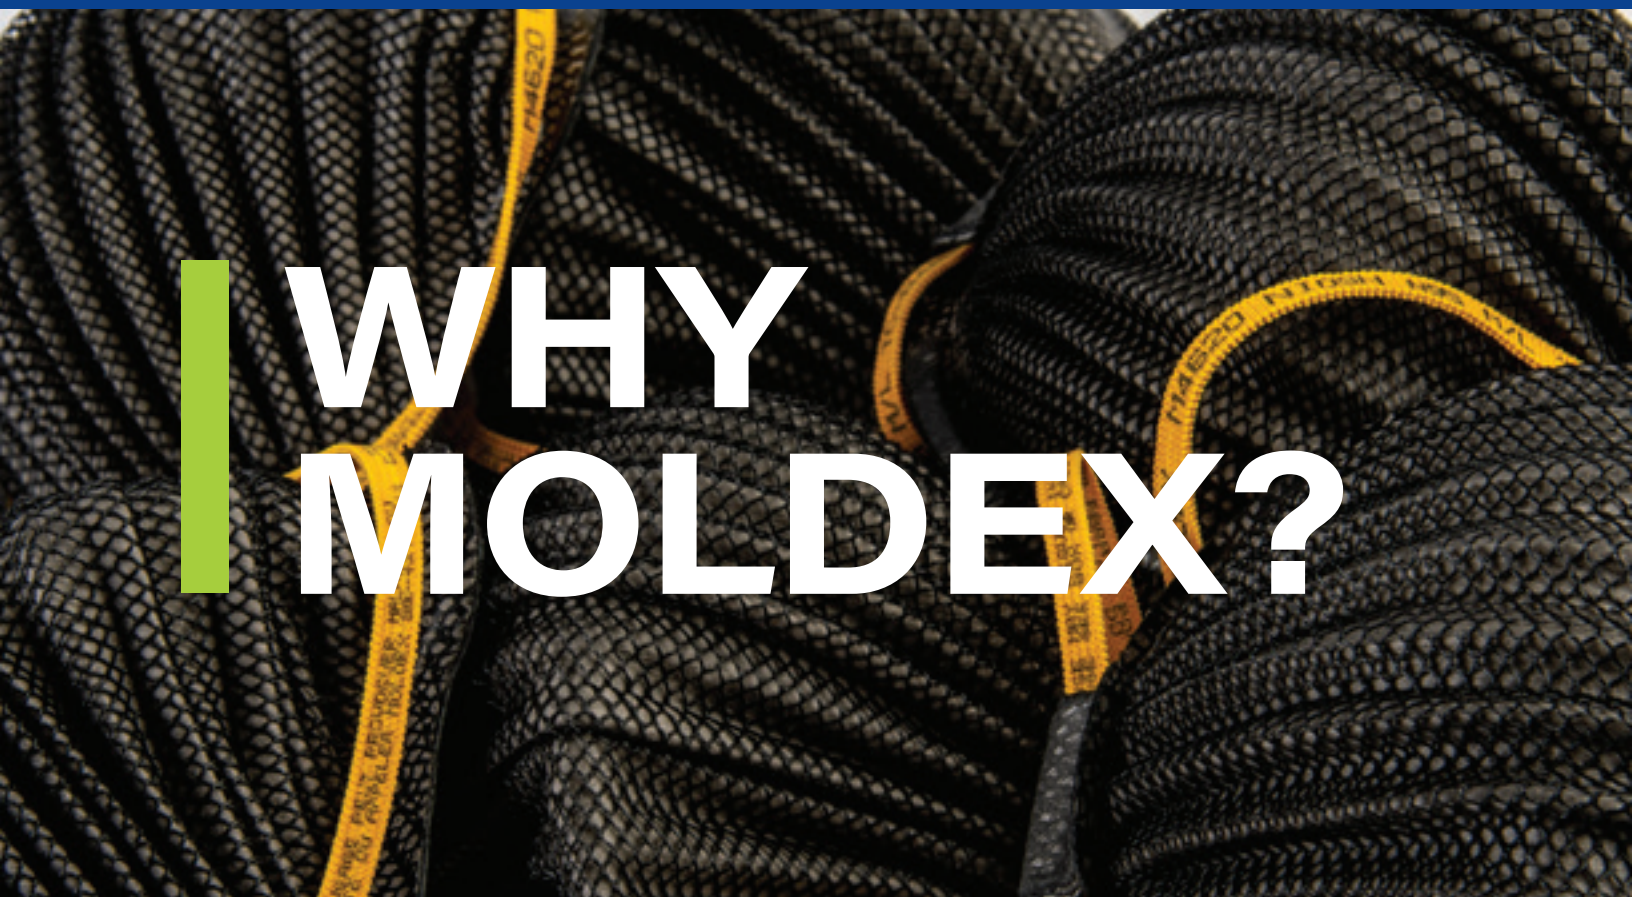

Ideas that wear well.®

HEARING, RESPIRATORY AND EYE PROTECTION

WHY MOLDEX?

In the world of personal protective equipment, Moldex is known for products that focus on innovative design, comfort, and value. We continue to integrate our values into everything we do; since our origins in the 1980s, we've worked hard to develop products that feel better, last longer and are better for the long-term health of the wearers and of the earth. To continue to meet these responsibilities, we are driven by innovation, quality and sustainability.

WHAT CAN YOU EXPECT FROM MOLDEX?

- PVC-free products and packaging
- 200+ patents and trademarks
- Vertical integration and domestic engineering
- Emphasis on innovation through R&D
- A passion for recycling, reusing and lengthening shelf life

MAJORITY
of our products are made in U.S.A.

PVC FREE
100%
All Moldex products are PVC Free.

100%
of our display boxes are printed on recycled board.

100%
of our marketing literature is printed on recycled paper.

QUALITY SOLUTIONS

INDEPENDENTLY TESTED

We believe our users deserve to have full confidence in the level of protection they receive when properly wearing Moldex products, which is why we conduct independent and third party NRR testing of all of our hearing protection.

PVC-FREE

Moldex has taken a leadership position among global PPE manufacturers in creating products and packaging without the use of harmful PVC.

200+ PATENTS AND TRADEMARKS

Dedicated to creating innovative, quality PPE that is longer-lasting, comfortable and provides best in class protection.

RECYCLED MATERIALS

A high percentage of scrap generated during product manufacturing is saved for future use throughout our product lines. We are also actively working with suppliers that prioritize using recycled material in our packaging.

MANUFACTURING & ENGINEERING PREDOMINANTLY IN THE USA

We proudly design and manufacture most of our PPE solutions in the USA. We use sophisticated automation to remain price competitive and maintain U.S.-based jobs.

RECYCLABLE PRODUCTS

Pocket-Paks and empty EcoStation® bottles are recyclable.

VERTICAL INTEGRATION

We have streamlined our supply chain and taken vertically integrated ownership of multiple processes to provide a responsibly sourced quality product.

A LESS-WASTE PRODUCT OFFERING

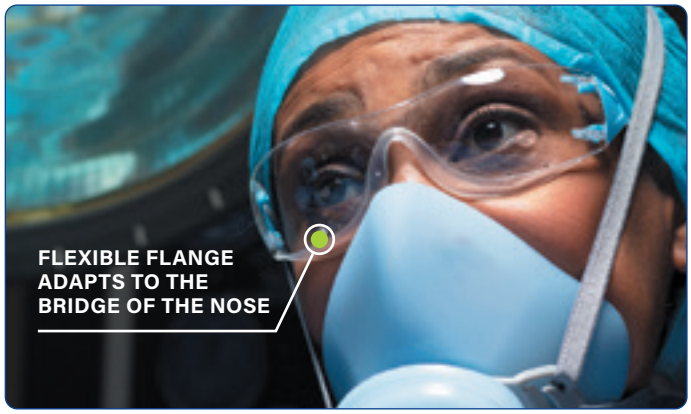

Innovations like EcoStation®, our P100 filters and Dura-Mesh® (found in all Disposable Respirators) reduce total cost of ownership and waste.

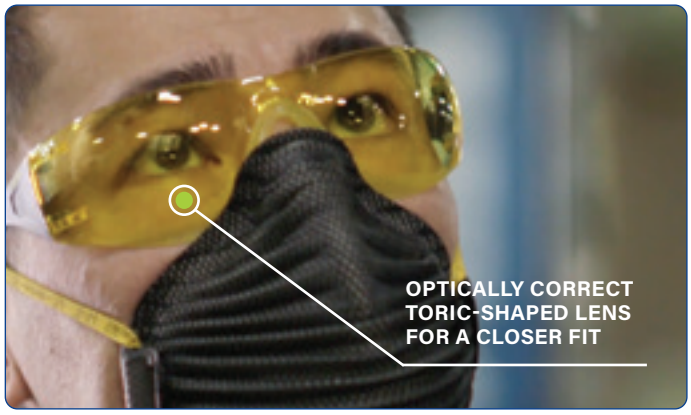

ADAPT™

EYEWEAR EVOLVED

At Moldex, we design PPE for industrial and healthcare professionals that has an ideal combination of comfort and utility. It's why we're so excited about Adapt™: eyewear that functions beautifully with reusable and disposable respirators.

At long last, there are safety glasses that fit comfortably even when wearing a mask. We call them Adapt™. Lightweight, protective and wonderfully comfortable.

AWARD-WINNING DESIGN

- Soft flexible flange helps protect against flying particles and debris
- Toric lens shape for a closer fit
- Reduced lens dimensions for added space in the nose bridge area, allowing for a comfortable fit with a respirator
- UV filter and high anti-scratch coating
- Anti-fog coating keeps vision clear
- Meets ANSI Z87.1; Z87+; AS/NZS 1337.1; CSA Z94.3.

WELCOME COMFORT

- Unique soft flexible flange means no cumbersome nose pad
- Flexible soft grip temples
- Ultra-light construction
- Available in clear, smoke, indoor/outdoor and amber lenses

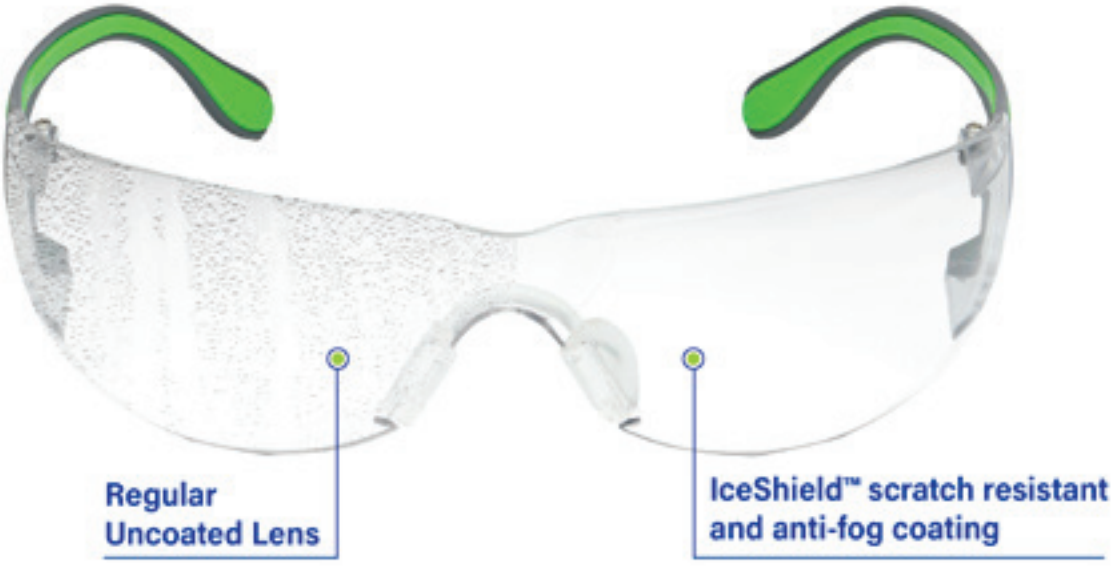

***IMPORTANT**: If these glasses are used with a respirator, make sure that the glasses do not interfere with the seal of the respirator to the wearer's face.*

Always refer to warnings and instructions prior to use. 100% PVC-Free for a more sustainable alternative.

ADAPT

IceShield™

IceShield™: Engineered for Clear Performance.

- Helps maintain clear vision in humid and high-exertion environments — designed to reduce fogging during extended wear.
- Works immediately — no activation or treatments required — ready out of the box for consistent performance.
- Supports use with respirators and face coverings — designed to reduce fog caused by warm breath and moisture buildup.
- Performs across temperature changes — helps maintain visibility when moving between indoor and outdoor work areas.
- Provides UV protection — helps shield eyes from harmful ultraviolet exposure during outdoor tasks.
- Reduces the need for lens wiping — helps minimize interruptions to help support on-task time.

Always refer to warnings and instructions prior to use. 100% PVC-Free for a more sustainable alternative.

NEW

ADAPT™ LITE

PERFORMANCE, SIMPLIFIED.

A streamlined extension of the ADAPT family, ADAPT Lite delivers ultra-light comfort, flexible soft-grip temples, and a toric lens design for a secure, comfortable fit. Finished with IceShield™ scratch-resistant, anti-fog coating, it's dependable performance made refreshingly simple.

AWARD-WINNING DESIGN

- Soft, flexible cushioning that reduces pressure and increases all-day comfort.
- Toric lens shape for a closer fit.
- Reduced lens dimensions for added space in the nose bridge area, allowing for a comfortable fit with a respirator.
- Extra flexible, soft grip temples for extra comfort.
- Ultra-light construction.
- Flexible soft grip temples.
- Meets the following standards: ANSI Z87.1, CSA Z94.3 and AS/NZS 1337.1.*

Two Fits in One.

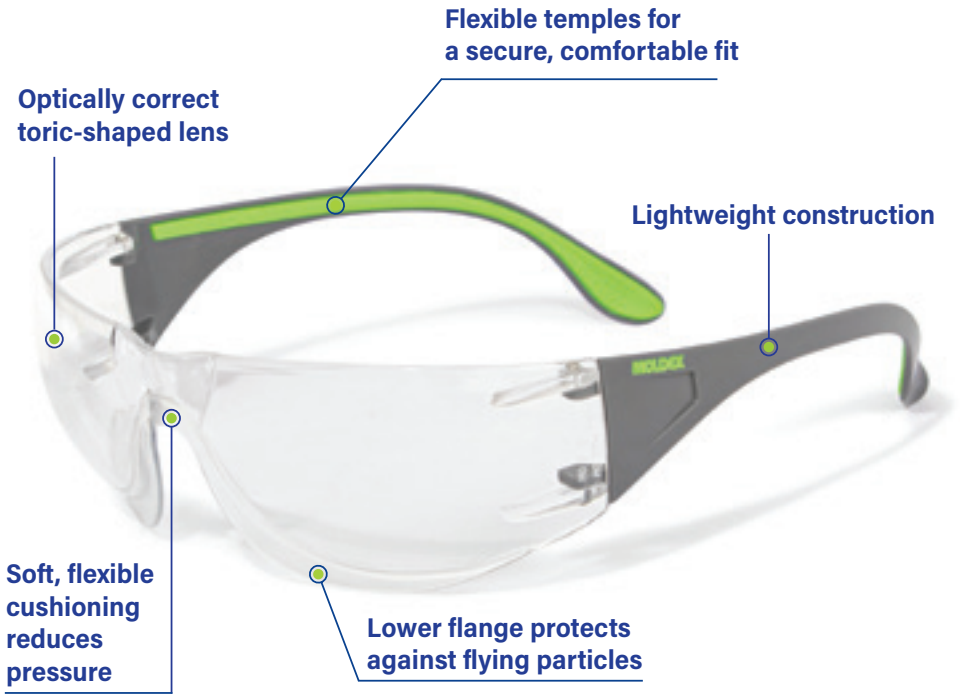

Reversible nose cushion adjusts for your comfort preference.

AIRWAVE®

MORE AIR. MORE WEAR.™

- Exclusive easy-breathing wave design.
- Larger surface area of the wave design means more airflow and breathability, boosting compliance.
- Longer use means less waste, fewer respirators used and lower costs.
- Dura-Mesh® shell resists collapsing in heat and humidity.
- FlexFit® design moves easily with your face and stays in place.
- Pinch-free molded nose bridge.
- Soft cloth SmartStrap® allows you to adjust for a custom fit, and allows respirator to hang around the neck when not in use.
- Metal free (SmartStrap® models only).
- Meets heat and flame resistance in accordance with ANSI/ISEA 110-2009 Section 7.11.1.

HANDYSTRAP® SERIES RESPIRATORS

- Cloth strap is cool and comfortable against the skin.
- HandyStrap® (with buckle) allows mask to hang down around the user's neck when not in use, preventing premature disposal, reducing usage and saving money.
- Dura-Mesh® provides bi-directional protection from dirt on the outside and moisture on the inside, resulting in masks lasting longer.
- Soft foam nose cushion for added comfort and no pressure points.
- Softspun lining for increased comfort and durability.
- Ventex® valve lets hot air out faster, so workers breathe easier and stay cooler, and helps masks last longer.
- Meets heat and flame resistance in accordance with ANSI/ISEA 110-2009 Section 7.11.1.

Hang mask from neck and break the "take off and toss" habit.

TAKING YOUR RESPIRATORY PROGRAM TO THE NEXT LEVEL

With industry-leading P100 filters and chemical cartridges plus lightweight, streamlined facepieces, Moldex's reusable respirator line is as good as it gets. Enjoy a boost in breathability and comfort, while increasing compliance and cutting costs. You owe it to yourself and your team to give it a try.

Always refer to warnings and instructions prior to use.

REMARKABLE COMFORT

Moldex's P100 filters and chemical cartridges are designed with an innovative, rectangular shape, increasing their surface areas. This means cooler and more comfortable breathing; you'll notice less resistance throughout the day while staying protected.

And with the P100 models with IonicAir Filtration, you'll notice even lower breathing resistance. It's P100 protection, but it feels like you're breathing through an N95. These are never before seen levels of protection and comfort.

BUDGET-FRIENDLY BREATHING

Thanks to the increased surface area of our P100 filters, you can count on longer service life and a reduced cost of ownership. Enjoy longer lasting filters that will lower costs while providing exceptional comfort to your employees.

STREAMLINED FACEPIECES

When it comes to maintenance for the 7000 / 7800 / 7900/ 9000 facepieces, it's simple. Our facepieces are designed with fewer parts, resulting in less cost and easy maintenance.

The lightweight design of all facepieces brings superior comfort. Workers will appreciate the comfort and longer wearability and employers will benefit from the increased user acceptance.

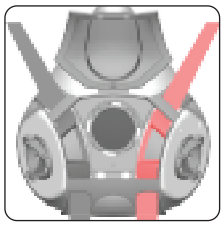

The award-winning 7000 / 7800 / 7900 / 9000 Series add up to simple, comfortable and economical respiratory protection that's just plain EASY TO WEAR.

NEW

7900 SERIES LOW-PROFILE WELDING RESPIRATOR

FITS COMFORTABLY UNDER MOST WELDING HELMETS

Moldex 7900 series brings a compact, performance-driven approach to welding respiratory protection. By optimizing internal airflow dynamics, it delivers dependable protection without the heavy, cumbersome feel of traditional half masks.

- Streamlined field of vision for enhanced safety while welding.
- Reduced dead air space can help lessen re-breathing of exhaled air and increase comfort.
- For even easier breathing and greater comfort, the 7900 Series facepiece is compatible with a full range of Moldex P100 filters, chemical cartridges, and combo-cartridges.
- Soft Touch TPE remains comfortable after extended use
- Optional drop down/lock down strap modes.
- Made in USA.

PRODUCT NUMBER	DESCRIPTION	DISPLAY QUANTITY	CASE QUANTITY

EXTRACTS HOT AIR FROM FACEPIECE

The Moldex® AirPower™ Series features an integrated blower, motor, and battery module, and battery module, designed to deliver active cooling comfort by drawing heat, moisture, and exhaled air away from the face for a cooler, more comfortable fit. Lightweight and rechargeable, the AirPower Series supports extended wear with minimal fatigue and no required maintenance.

AirPower™ AIR ASSIST MODULE 7850 SERIES

- Ultimate comfort with Moldex 7800 Series Premium Silicone Facepiece in 3 sizes: 7851 Small, 7852 Medium, 7853 Large.
- Can be used with all Moldex semi-rectangular Particulate Filters and Gas/Vapor Cartridges.
- Minimizes discomfort and designed to help reduce heat an moisture build-up, by drawing out exhale air from facepiece, helping to create a cooling effect on the face.
- The blower has 4 levels of airflow so you can control the cooling comfort your way.
- The module is lightweight, weighing only 5.3 ozs.
- USB cable supplied and charging port is built into battery.

PRODUCT NUMBER	DESCRIPTION	DISPLAY QUANTITY	CASE QUANTITY

P100 FILTERS

For 7000/7800/9000 Series Facepieces

7740 7750 7760

7740+ 7750+ 7760+

Moldex's P100 filters, with a surface area that's 3x larger than popular filter disks, has changed P100 technology. These filters are a boost in comfort, wear, and compliance like never seen before.

IonicAir® Filtration Technology™ (IFT ™) is a Moldex proprietary process for enhancing filter efficiency and lowering breathing resistance. Try now with any P100 with IFT™ model to see how eye-opening (and lung-opening) those first few inhales are!

- Increased surface area means longer service life and lower cost of ownership.
- P100 Particulate filter is lighter than traditional filter cartridges.
- Encased in Dura-Mesh® for durability and rough handling.
- All Moldex Particulate Filters are NIOSH certified.
- Can be used with 7000, 7800, 7900 and 9000 series respirators.
- Easier breathing - cooler and more comfortable.
- NIOSH certified; efficiency level of 99.97% or greater against both oil and non-oil based particulate aerosols.
- Meets heat and flame resistance in accordance with ANSI/ISEA 110-2009 Section 7.11.1.
- 100% PVC-Free for a more sustainable solution.

7927 Piggyback Adapter

- Use Moldex 7740 or 7740+ with any semi-rectangular Moldex gas/vapor using the 7927 piggyback Adapter.

7888 Protective Filter Cover

- Protects filter media from sparks and splashes.
- Use with any Moldex semi-rectangular filter.

CHEMICAL CARTRIDGES

For 7000/7800/9000 Series Facepieces

PROTECTION, BREATHABILITY, COMPLIANCE

Moldex's semi-rectangular chemical cartridges have an increased surface area thanks to their innovative shape. This means improved breathability; you'll notice less resistance throughout the day while staying protected.

7000, 7800 and 9000 Semi-Rectangular Gas/Vapor Cartridges

- Reduced breathing resistance, means improved breathability.
- Can be used with 7000, 7800 and 9000 series respirators.
- Keyless bayonet-style attachment makes assembly quick and easy.
- Pair with 7740 P100 particulate filter using Moldex 7927 piggyback Adapter.
- 100% PVC-Free for a reduced environmental impact.

COMBO GAS/VAPOR CARTRIDGES/P100 FILTER

ENHANCED USER CONVENIENCE.

Moldex introduces the latest innovation in respiratory protection– the #7067 Series Combo Gas/Vapor Cartridges/ P100 Filter. The Moldex #7067 Series combines cartridges and filters into a fully integrated, easy-to-attach unit, offering maximum convenience, broader based protection, and class leading comfort.

COVERS MORE WORKPLACE HAZARDS WITH MORE COMFORT THAN EVER!

- **Exclusive IonicAir Filtration Technology™ (IFT ™)** used in P100 Filter, means more airflow, more comfort, more wear and compliance.
- Simplifies inventory by combining gas/vapor cartridges and P100 filters.
- Lower initial inhalation resistance than other similar popular Combo Cartridges/ P100 Filters, means more breathability and comfort.
- Can be used with 7000, 7800, 7900 and 9000 series facepieces.
- Emphasizes user convenience and broader based protection, for a wider variety of hazardous environments.
- Keyless bayonet-style attachment makes assembly quick and easy.
- 100% PVC-Free for a reduced environmental impact.
- NIOSH approved.

The MX-5, MX-6 and MX-7 are a cool and comfortable upgrade in earmuffs. The larger cup openings are designed to fit most ear sizes. Exclusive waffled cup foam delivers superior protection in MX-6 and MX-7.

The cushion-ribbed headband allows cool comfort all day long and the non-slip wire makes adjustments easy. The MX-5, MX-6 and MX-7 are easy to wear and durable, have a sharp, cool look and increase compliance.

- The headband is made of lightweight plastic and metal
- Exclusive bright green color and sleek, curvy shape for a look that workers will want to wear
- 100% PVC-Free

FITCHECK SOLO LOAN PROGRAM

- FitCheck Solo™ helps take the guesswork out of matching the correct hearing protection with known noise exposure
- Test from 3 to 7 frequencies and generate the FitCheck Solo Personal Attenuation Rating (PAR)
- For details on our loan program, contact our Technical Service Department at 800-421-0668 ext. 512 or at tech@moldex.com

PORTACOUNT LOAN PROGRAM

- Quantitatively test a variety of respirator types, eliminating the guesswork found with other testing methods
- For details on our loan program, contact our Technical Service Department at 800-421-0668 x512 or at tech@moldex.com

OHD CARTRIDGE LOAN PROGRAM

9513-0400

- Quantifit establishes and maintains a slight vacuum, or controlled negative pressure, inside the mask
- CNP technology was accepted by OSHA in 1998, and has quickly been adopted by industry to be the quickest and most accurate way to perform respirator fit testing
- The gold standard in respirator fit testing

Always refer to warnings and instructions prior to use. 100% PVC-Free for a more sustainable alternative.
